## FIRST RECORD OF *LOPHOPOMPILUS SAMARIENSIS* (PALLAS, 1771) (HYMENOPTERA: POMPILIDAE) FROM THE REPUBLIC OF KHAKASSIA

S. V. Dragan

Katanov Khakass State University, Abakan, 655000, Russia. E-mail: dragan@khsu.ru

**Summary.** The spider wasp *Lophopompilus samariensis* (Pallas, 1771) is recorded for the Republic of Khakassia for the first time.

**Key words:** spider wasps, fauna, new record, Siberia, Russia.

**С. В. Драган Первое указание *Lophopompilus samariensis* (Pallas, 1771)  
(Hymenoptera: Pompilidae) из Республики Хакасия // Дальневосточный  
энтомолог. 2019. N 384. С. 10-11.**

**Резюме.** Впервые для фауны Хакасии указывается дорожная оса *Lophopompilus samariensis* (Pallas, 1771).

## INTRODUCTION

The genus *Lophopompilus* Radoszkowski, 1887 includes 9 species; four of them distributed in the Palaearctic region (Loktionov & Lelej, 2017). Two species has been known from the Siberia, namely *L. grandis* (Eversmann, 1846) and *L. samariensis* (Pallas, 1771), but both never was recorded from the Republic of Khakassia. One female of spider wasp of the genus *Lophopompilus* was collected by the author on the territory of the steppe area "Oglakhty" (State Reserve "Khakassky"). The specimen is deposited in Zoological Museum of Katanov Khakass State University (Abakan, Russia).

## NEW RECORD

### *Lophopompilus samariensis* (Pallas, 1771)
